Industrial Disease

As part of his well-rounded PI practice Rob has established a considerable practice in industrial/occupational disease work.

He has extensive experience of all forms of industrial disease work but it is his particular expertise in some of the

leading asbestos and mesothelioma cases which catches the eye. He has acted in the British Coal Coke Oven Workers Group Litigation, British Steel Coke Oven Workers Group Litigation and other group litigation. Significant cases include:

- *Dryden v Johnson Matthey plc* [2019] AC 403: win in Supreme Court, establishing that sensitivity to platinum salts constituted an injury
- *R (Whitston) v Lord Chancellor* (2015): judicial review on behalf of Asbestos Victims Support Forum against Lord Chancellor in relation to court fees; settled after Lord Chancellor agreed to amend fee remission order.

- *Smith v RBS* [2024] A.C. 955, [2023] UKSC 34: Rob won this case in the Supreme Court, leading Jonathan Butters. It was a PPI claim in which the Supreme Court accepted that s.140A of the CCA 1974 applied even though the PPI policy had been taken out, and payments ended in the 2000s, because the claimant's credit card agreement with RBS continued until 2016. Accordingly, whether the relationship was unfair was to be judged in 2016 and the case was not out of time. Further, it was unfair.
- *Potter v Canada Square Operations Ltd* [2024] A.C. 679, [2023] UKSC 41: Rob won this case in the Supreme Court, leading Jonathan Butters.
